Beijing Daxing International Airport, Beijing, China

Theme and Intent

Sunnyvale is the heart of Silicon Valley and deserves a sculpture that is equally forward-facing. The artwork is, in its very nature, the definition of innovation and a perfect example of the future-focused ethos of the city.

Artwork

Site Map

COSMOS is futuristic and emulates the maverick spirit that drives Silicon Valley to explore and expand humankind beyond our world, into the exciting unknown.

COSMOS is inspired by the UAP, (Unidentified Aerial Phenomenon formerly the UFO). It is the culmination of many futurisms translated into Glass, Steel, and Light.

COSMOS is created using undulating architectural art glass, a medium and application never before combined at such scale.

Photo Vitec technology will be used throughout the sculpture and operate using renewable energy, ensuring a net zero design.

The artwork is a celestial sculpture inspired by our collective imagination surrounding the cosmos. **COSMOS** reimagines Sunnyvale as a flow of energy and awe, enticing audiences to reflect on the present moment within our universal existence.

Visual Impact

COSMOS will deliver a new experience that aims to create a sense of place and universal belonging. **COSMOS** is a colossal sculpture situated within the booming Sunnyvale landscape.

As the sun sets, the night sky will activate **COSMOS** as a meditative current of light and color. The artwork acts as a sphere of colorful light and will stand like a refreshing beacon in the luminous day and night.

The sculpture utilizes Architectural Art Glass and stainless steel, enabling the artwork to shine and shimmer both during the day and at night. The material gives an iridescent effect, simulating a glimmering, starry night sky.

COSMOS utilizes approximately 900 square feet of glass and measures 20 ft high with a 20 foot diameter.

COSMOS

Large-Scale Sculpture

- Luminescent and dynamic color
- Commanding Presence
- Innovative Material
- Unique and Original Design

The circular design of **COSMOS** represents the gravitational pull of Silicon Valley, bringing the brightest and most curious into its orbit.

The artwork transforms the space into a multicolored celebration of what Silicon Valley represents, a lasting ideal that acts as a bridge between the past, present, and future.

Technical Information

Material Architectural Art Glass

The glass panels would have a protective clear finish that would protect from **UV Rays**.

*The applied colors will be fired on to the glass at a temperature of about 600 - 800 °F to **form a permanent bond with the glass, lifetime guaranteed.***

The glass will be laminated and tempered same any outdoor structure will meet all the ***building codes of the state of California.***

The artwork is structurally engineered to withstand natural disasters such as earthquakes up to magnitude 8.0 and hurricanes as strong as Hurricane Sandy.

The licensed structural engineer will provide a sealed certificate.

The maintenance is the same method as regular glass.
