1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires April 20, 2027, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Supplier Development Administrator. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity

payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	
10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	In 1945, Joseph Cyril Bamford founded JCB with the goal of producing the best, most innovative machines on the market while staying true to the needs of the customer. Approaching eighty years and countless innovations later, JCB has grown to become the third largest heavy equipment manufacturer in the world. And because we are still a family-owned company, our dedication to the customer remains a top priority. We answer to our customers, not a group of shareholders. That freedom allows us to concentrate on developing the latest technologies and incorporating them into our equipment. We focus on what is needed on the jobsite – a machine that holds up in the toughest environment and increases productivity. At JCB, we stand behind our products – and our name.	*
11	What are your company's expectations in the event of an award?	JCB is an awardee on the Sourcewell Medium-duty Construction Equipment contract, and as such, we are very familiar with the Sourcewell program and the value it brings to both our customer and dealer personnel. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	JCB is best described as an original equipment manufacturer. We have an extensive dealer network throughout the US and Canada, which are individually owned operations.	*
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	As an Original Equipment Manufacturer, we are in compliance with required ISO/SAE standards for our products. We also meet all necessary OSHA and insurance regulations required for our operations.	*

Describe your company's capability to meet the needs of Sourcwell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	JCB Inc. has approximately 700 employees in North America, 60 of which are field based throughout North America who serve our customers. We also have dedicated field sales reps for our Industrial products - Scissor Lifts and Generators - which are specifically focused on the products in the RFP. Throughout our extensive dealer network, we have approximately 150 dealer salesmen with representation throughout the US and Canada (US only for Generators), which are focused on selling equipment in this RFP.	*
27	Dealer network or other distribution methods.	JCB has an extensive dealer network in the US and Canada who sell and support our equipment. Our Direct sales teams also has relationships with many Rental Companies (i.e. United Rentals, Sunbelt Rentals, etc) that have approximately 2,500 locations across the United States.	*
28	Service force.	JCB has a team of dedicated District Service Managers that are field-based throughout the US and Canada and provide product support to our dealer network. All authorized JCB dealers have full trained/certified service technicians to serve and maintain Sourcwell members. At our headquarters in Savannah, GA, we have the JCB Uptime Center, which is a monitoring and response system for our Technical Support teams to provide world-class product support.	*
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Orders will typically be received and processed through the JCB dealer network. JCB has an established Sourcwell Sales Training Guide that is used to provide the dealer sales teams with instructions and information on the Sourcwell contract, pricing structure, order processing, and sales reporting.	*
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	JCB understands the importance of customer service. Our Sales teams pride themselves on getting back to our customers within 24 hours on quotation requests and deliver a first-class customer experience throughout the delivery process. We feel that we have the best back-up in the business and as a result our service teams are a top priority. With 4 parts depots located in North America alone, we have coast-to-coast coverage to minimize machine down-time. As mentioned above, we also utilize the JCB Uptime Center, which as it sounds, is used to maximize our customer's machine uptime and provide the highest level of support to our dealer product support teams.	*
31	Describe your ability and willingness to provide your products and services to Sourcwell participating entities in the United States.	JCB is certainly able and willing to provide our products and services to Sourcwell members. We offer one of the widest ranges of equipment in the industry, with unique product solutions, and an extensive dealer network to both sell and support the products. We have found the Sourcwell program to be an excellent tool for both our customers and dealers and it is increasing in awareness and use, so we very much look forward to the opportunity to continue to build-on the program with the Portable Construction Equipment contract.	*
32	Describe your ability and willingness to provide your products and services to Sourcwell participating entities in Canada. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	Not applicable – JCB can service all areas and member sectors.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	JCB has dealer presence in Hawaii and Alaska.	*

Table 7: Marketing Plan

Line Item	Question	Response *	
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	To aid our sales teams, we have created a Sourcewell Sales Training Guide that both helps to promote and provide education on the program. We believe it is critically important for the sales folks to be familiar and comfortable with the program, and as one would expect, as awareness has grown so has utilization of the program. We would tailor the same approach to the Portable Construction Equipment contract as well. Further to that, we recently created a sales flyer for one of our machines commonly sold to governmental customers to include info on the machine and the Sourcewell Medium-duty construction equipment contract information. We also updated the website page for that machine to include info on the Sourcewell contract (https://www.jcb.com/en-us/products/wheeled-excavators/hydradig/hydradig). The sales flyer was distributed to our dealer network for a targeted muni campaign. Again, we would complete the same process for this contract as well. Additionally, when we attend Governmental trade shows our product range literature features the Sourcewell Logo and contract information. Finally, one area of focus we have is to work with our dealers to ensure they are familiar with the participating members in their region. We have already scheduled a training calendar for 2023 with some of the key dealers to review the member's list and an overview of the program so that the program remains fresh on their minds. If awarded the Portable Construction Equipment contract, we will continue to build on these promotions and keep gaining momentum that we have achieved through the Sourcewell program.	*
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Digital media is a critical component to our marketing strategy. We have a very active social media presence, but also have the luxury of the content that our dealer network produces in their local markets. We do also use marketing agencies to extend our reach through online advertising and will continue to promote the Sourcewell program through our various digital marketing methods.	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	In our experience as a contract holder, Sourcewell has provided solid support and promotion of the contract. They have connected us with interested inquirers, held training sessions for our internal and dealer sales teams, and helped to provide tools such as member list and reclaimed accounts. As I've stated, the Sourcewell award is an important tool to our sales processes and with its increasing success, we will continue to apply more focus, resources, and promotion to it.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	JCB does not have an E-procurement system.	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	
40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	With every new JCB delivery, the delivering sales representative is responsible to give the Sourcewell member a "walk around" of the product showing the features and benefits and basic operational instruction. Maintenance familiarization training can be offered as an additional cost provided by our local authorized dealer and can be quoted by request. JCB does not offer an operator training/certification program but does provide operational instruction upon delivery and an operator's manual is provided with every new machine.	*
41	Describe any technological advances that your proposed products or services offer.	With the growing importance to reduce or eliminate emissions produced from construction equipment, JCB has been on the cutting-edge of technology developments to this challenge. Designing and building our own engine for many of our products has allowed us to engineer machine solutions that do not require aftertreatment systems. This results in significant cost savings for our customers while protecting the environment. As technology continues to develop, we have introduced several electrically powered construction equipment pieces that produce zero-emissions in operations. We are also in the process of developing our hydrogen combustion engine which will provide zero carbon emissions and revolutionize the industry.	*
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	In addition to the advances we are making to produce zero-emission equipment, we also take pride in our manufacturing policies and sustainability initiatives. We can proudly report that since 2008 we have reduced our waste output by 90%.	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	2021 Royal Automobile Club's Dewar Trophy - JCB Hydrogen fueled engine	*

Our range of scissor lifts and our boom lift offer the perfect balance of quality, safety, and performance, all at very competitive pricing. We are the world-wide market leader for many of our CE products and it is a result of the continued innovations and enhancements that we make to our products, driven from our desire to have the best products. We incorporate that same mentality into our Scissor Lift and Generator products.	*

57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	JCB will list all applicable category models to be included in the contract with a discount off of List price noted for each. JCB does not have SKU numbers for our equipment.	*

For orders of 4 – 9 units, we can discount a further 2% points from the standard discount structure. Volume orders of 10 units or more can be evaluated on a case by case basis for additional discounts.	*
60	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	For non-published items, JCB will offer a 5% discount off of the Manufacturer list price.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	The only additional charge, other than freight/shipping, will be for the JCB Dealer's charge for pre-delivery inspection. This service allows the dealer to properly inspect and prepare the machine for final delivery to the customer. This charge will be an itemized line item on the invoice.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight/delivery charges are an additional cost to the Sourcewell member. Delivery will be arranged by JCB and the local JCB dealer facilitating the transaction. Freight/delivery charges will be based on FOB Pooler, GA unless possible to arrange shipping from a closer port/location. These charges will be itemized as a line item on the invoice.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Shipping to these territories would fall under the same terms as answered in the previous question.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	JCB receives discounted freight and trucking rates due to the volume of machinery and movements that we complete. This cost savings is passed onto our dealers and customers reducing the overall transaction costs to the customer.	*

With the ceiling-based pricing established, the structure allows for our dealers to provide competitive pricing and flexibility for more aggressive pricing to meet customer budgets, multi-unit transactions, and dealer onhand stock.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	For contract sales reports - After each month concludes each Regional sales rep is tasked to report these sales to ensure contract sales are noted. As a second method to ensure contract sales are being reported, JCB issues a Sourcewell contract specific pin to dealers making Contract sales. When these sales are reported into the JCB system portal, the dealer will note the contract Pin# which is an identifier of a contract sale. To ensure proper pricing, pricing compliance is randomly audited once a month.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	JCB understands the value that the Sourcewell program provides. The dealers who are engaged and utilizing the program are experiencing greater sales success. We have implemented metrics to identify dealer municipal market share and ratios to compare Sourcewell sales to overall municipal sales.	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	JCB proposes a 1.5% administrative fee.	*
